Ricky Pratama Liang

Full Stack Software Developer

+62 853-6135-0808 | rickypratama1432@gmail.com | LinkedIn | ricky-portofolio.vercel.app

PROFESSIONAL SUMMARY

Full Stack Software Developer (B.Sc. Computer Science, GPA 3.69/4.00) building web and mobile applications with React.js, Next.js, Node.js, ASP.NET, React Native, PostgreSQL and SQL Server. Experienced in enterprise projects including TLS Lexus, Accelist Career and Kumpul Yuk, and, at Perwira Steel, in developing an AI-powered computer vision platform for factory security using YOLOv8 and PaddleOCR. Strong foundation in software engineering, database design and modern web development.

TECHNICAL SKILLS

Programming	JavaScript, TypeScript, Python, C#
Frontend	React.js, Next.js, HTML, CSS
Backend	Node.js, ASP.NET, Laravel, FastAPI
Database	PostgreSQL, SQL Server, Redis
Mobile	React Native, Expo
AI & Computer Vision	YOLOv8, PaddleOCR, OpenCV, PyTorch, Object Detection, OCR, Object Tracking
DevOps & Tools	Docker, Docker Compose, MinIO, Git, GitHub, VS Code

WORK EXPERIENCE

PT Perwira Adhitama Sejati (Perwira Steel)

Jun 2026 – Present

FSIP – Factory Security Intelligence Platform · AI-powered CCTV vehicle monitoring

Tech: Python, FastAPI, YOLOv8, PaddleOCR, OpenCV, PostgreSQL, Redis, Next.js, Docker

- Build a real-time license plate recognition pipeline using YOLOv8 for vehicle and plate detection and PaddleOCR for reading, with OpenCV preprocessing (CLAHE, upscaling) and an image-quality gate.
- Improve plate-reading stability with multi-frame OCR voting (character-level and confidence/recency-weighted) and a per-vehicle plate lock that removes flickering results.
- Develop vehicle tracking, vehicle–plate association and confidence fusion, plus vehicle color and subclass classification (KMeans/HSV, MobileNetV3).
- Design a FastAPI backend with a route-validation state machine, a rule-based decision engine, and incident and evidence capture (Redis, MinIO, RTSP video clips).
- Deploy an 8-service stack with Docker Compose and Coolify, with live HLS streaming on a Next.js dashboard.

PT Accelist Lentera Indonesia

Sep 2024 – Mar 2025

Full Stack Developer Intern

- Developed web applications using React.js, Node.js, ASP.NET and SQL Server.
- Implemented new features, resolved bugs, and improved UI/UX and application performance.
- Participated in database migration projects.
- Developed React Native mobile features.

EDUCATION

Binus University

Sep 2021 – Dec 2025

Bachelor of Computer Science · GPA 3.69 / 4.00

Yuanze University

Feb 2024 – Jun 2024

Exchange Student Program

ACHIEVEMENTS

- Presenter at AiDAS International Conference
- BCA Digital Transformation for Innovation Certification

LANGUAGES

- Indonesian (Native)
- English (Professional)
- Japanese (Intermediate)
- Mandarin (Beginner)
